

Capturing Commitments for Results

Based on discussions about the most impressive and inspiring results they'd learned about at the 2011 Forum, Partners were asked to identify specific results that they would commit to achieving before the next Forum. Take a look at some of these commitments (organized by region) to see if there are any you can support or to remind yourself of your own commitments.

AFRICA		
ORGANIZATION NAME	PARTICIPANT	COMMITMENT
Aid Africa	Peter Keller	Double the number of stoves we distribute
Aid Africa	Peter Keller	Better product consistencies and installation
Aid Africa	Peter Keller	Use people from our customer base in new communities
AMADER	Keita Seydou	Evaluate the level of the stoves utilization and the level of the deforestation
CARE International in Rwanda	Prudence Ndolimana	Improve the design of my stoves and disseminate at least 6,000 new stoves to poor communities. I will also increase quality control in my stove distribution system
Centre for Integrated Research and Community Development Uganda (CIRCODU)	Fred Isabirye	Participate in writing standard testing methodology
Centre for Integrated Research and Community Development Uganda (CIRCODU)	Fred Isabirye	Carry on more maintenance and evaluation process
Centre for Integrated Research and Community Development Uganda (CIRCODU)	Fred Isabirye	Perform indoor air monitoring for health of the users
Centre for Integrated Research and Community Development Uganda (CIRCODU)	Fred Isabirye	Construct more biogas plants
Centre for Integrated Research and Community Development Uganda (CIRCODU)	Fred Isabirye	Learn more on CDM methodology and use it to help local manufacture to access carbon finance
CREEC	Willem Getkate	Be active member of network of testing institute contributing to global issues
CREEC	Willem Getkate	Publish result, open source knowledge sharing
CREEC	Willem Getkate	Implement program promotions of TLUB
CREEC	Willem Getkate	Implement a stove testing institute with accurate/honest testing in accordance with globally accepted methods/protocols.
CREEC	Willem Getkate	Contribute to GACC WGS we are part of.
Fuel From Wastes Research Center	Abasi Kazibwe Musisi	Improving technology design and performance
Fuel From Wastes Research Center	Abasi Kazibwe Musisi	I will try to transfer the already research technology to Uganda and then improve on it in terms of briquette stove construction
Gender and Energy Network Of Ghana (GEDA)	Faustina Boukaye	Sensitize and educate 1000 women to assist them to make choices in selection of improved stoves

Gender and Energy Network Of Ghana (GEDA)	Faustina Boukaye	Source initial funding to buy stoves, to distribute to 200 in an on credit basis
Gender and Energy Network Of Ghana (GEDA)	Faustina Boukaye	Distribute stoves to 1000 households to partner's funding and sources
GIZ Ethiopia	Samson Atsbha	Implementing CDM
GIZ Ethiopia	Samson Atsbha	Establishing nationals stoves program
Global Network for Environment and Economic Development Research	Dr. Joseph Adelegan	Spread the good work of clean and efficient cooking gas from abattoir waste to 3 African countries
Gratis Foundation	Sabina Anokye Mensah	Collaborate with tool to provide and disseminate more stoves
Gratis Foundation	Sabina Anokye Mensah	Manufacture 100 LPG stoves
Gratis Foundation	Sabina Anokye Mensah	Collaborate with GEDA to maintain gender concerns into the ICSP
Joint Energy & Environment Projects	Ruth Kiwanuka	Educate people more about the health benefits when using the improved stoves
Joint Energy & Environment Projects (JEEP)	Ruth Kiwanuka	Persuade and convince the government to get more involved in the stove and entire IAP program
Practical Action East Africa	Vincent Okello	Initiate quarterly stove testing for all our stoves
Practical Action East Africa	Vincent Okello	GACC participation in working groups
Practical Action East Africa	Vincent Okello	Initiate prototype TLUD's in my project area
Practical Action East Africa	Vincent Okello	Use local stove testing centre in Kampala, Uganda (CREEC) for tests
Solar Connect Association	Mukasa Kawesa	Do KPT MBT in 30 villages in northern Uganda
Solar Connect Association	Mukasa Kawesa	Produce and market 20,000 integrated cooking devices
Solar Cookers International	AmyJo Mattheis	Work with Emmy in Uganda to create/ implement joint LPG+solar project.
Solar Cookers International	Margaret Owinio	Using result findings for projects in our region as baseline for our M+E
Solar Cookers International	Margaret Owinio	Use the Rotary Club to help meet targets
Sustainable Energy Technology and Research (SeTAR) Centre	David Kimemia	Identify an appropriate stove model for dissemination. Aim for 50 000 to reach households in the next 2 years.
The World Bank	Sameer Akbar	Support clean cooking initiative in AFRICA
Toyola Energy Limited	Suraj Ologburo	Install at least 60 000 more stoves before the next Forum and expand to at least one new country
Uganda Carbon Bureau	Virginia Echavarría	Facilitating as many stoves producers + manufacturers access to the CDM POA in Uganda, Kenya, Tanzania & Rwanda
Uganda Stove Manufacturers Ltd (Ugastove)	David Mukisa	Facilitate the formation of strong partnerships between manufactures and retailers of ICS to create a boom of successful model for scale
UNHCR	Amare Gebre Egziabher	Double the number of stove distribution to refugees in Ethiopia 2010 before the next forum
World Vision Ghana	Harry Akama	Collaborate with GEDA in when to provide microfinance intervention to make cook stove accessible to homes
World Vision Ghana	Harry Akama	As an NGO partner with a local manufacture, to promote cookstoves solution in communities in operational areas
World Vision Ghana	Harry Akama	Sensitize WV Ghana Health Team to include health issues at due to IAP in health education message in communities

ASIA		
ORGANIZATION NAME	PARTICIPANT	COMMITMENT
Air Resource Management Center, Ministry of Environment	Ruwan Weerasooriya	Distribute 30000 cook stoves to N/E provinces in Sri Lanka
Air Resource Management Center, Ministry of Environment	Ruwan Weerasooriya	Conduct gasifier cook stove camp in Sri Lanka, with Dr. Paul Andersen
Alternative Energy Promotion Centre/Energy Sector Assistance Programme (AEPC/ESAP)	Karuna Bajracharya	Working together with Winrock Nepal for linking finance and Clean Development Mechanism (CDM)
Alternative Energy Promotion Centre/Energy Sector Assistance Programme (AEPC/ESAP)	Karuna Bajracharya	Implement rocket stoves in our working area.
Alternative Energy Promotion Centre/Energy Sector Assistance Programme (AEPC/ESAP)	Karuna Bajracharya	To have continue stove testing in our workplace
Biogas Sector Partnership-Nepal	Bindu Manandhar	Construction of 25,000 biogas plants in Nepal
Centre for Health and Environment Conservation Nepal (CHEC Nepal)	Umesh Gupta	Developing local markets
Centre for Health and Environment Conservation Nepal (CHEC Nepal)	Umesh Gupta	Improving technologies design and performance
Centre for Health and Environment Conservation Nepal (CHEC Nepal)	Umesh Gupta	More than 10,000 stove installations
Centre for Rural Energy Promotion and Environment Technology Service (CREPETS) Pvt. Ltd.	Raj Kumar Sah	Improving technology, design and performance
Clean Air Sri Lanka	Sampath Ranasinghe	Distribute 20 000 "ANAGI" stoves by the end of 2011 in the North East provinces of Sri Lanka
Clean Air Sri Lanka	Sampath Ranasinghe	Start to work on CDM credit program for 50 000 improved stoves.
Clean Air Sri Lanka	Sampath Ranasinghe	Indoor air quality (IAQ) related health issues.
Clean Air Sri Lanka	Sampath Ranasinghe	12 awareness programs in Schools
Practical Action Nepal	Shirish Singh	Increased awareness and improved health of 10000 households through integrated WASH and IAP reductions interventions.
Samuchit Enviro Tech Pvt Ltd	Amit Asnikar	I will like to have monitory and evaluation at each stage of my project i.e. from KPT to standardization and sales and service
Winrock International NEPAL	Suman Dhakal	Before the next forum we will be able to register at least 2 of our ICS under gold standard CDM

Winrock International NEPAL	Suman Dhakal	Before the next forum we will be able to promote at least 20,000 ICS & 5 thousand biogas plants in different parts of Nepal
GLOBAL		
ORGANIZATION NAME	PARTICIPANT	COMMITMENT
Aprovecho	Sam Bentson	Place a high priority on documenting and publishing small, community sale projects we shouldn't lose track on individuals we meet while travelling
Berkeley Air Monitoring Group	Michael Johnson	Help to develop approaches/protocols that help programs increase stove performance in field
Berkeley Air Monitoring Group	Simone Brant	Work to help programs integrate adoption+using studies
Berkeley Air Monitoring Group	Simone Brant	Help develop standardized monitoring tools
Biomass Energy Foundation	Paul Anderson	BEF gasifier stove camps around the world in 2011/2012
Bosch and Siemens Home Appliances Group	Tantri Kadiman-Beekelaar	Commit to improve monitoring and evaluation processes
Bosch and Siemens Home Appliances Group	Tantri Kadiman-Beekelaar	Commit to introducing the plant oil stove in more countries than current
Bosch and Siemens Home Appliances Group	Tantri Kadiman-Beekelaar	Commit to investigate and conduct activities/registration required for carbon credits
Bosch and Siemens Home Appliances Group	Tantri Kadiman-Beekelaar	Commit to conduct stove testing based on standardized methodologies (WBT, CCT, KPT)
ENERGIA International Network on Gender and Sustainable Energy	Sheila Oparaocha	Send the presentation and report from the PCIA forum to members in 22 countries
ENERGIA International Network on Gender and Sustainable Energy	Sheila Oparaocha	Review the PCIA reporting forum with a gender lens
GIZ - Deutsche Gesellschaft für Internationale Zusammenarbeit	Lisa Feldman	Contribute to PCIA bulletin
GIZ - Deutsche Gesellschaft für Internationale Zusammenarbeit	Lisa Feldman	Share results and experiences from GIZ stove projects
GIZ - Deutsche Gesellschaft für Internationale Zusammenarbeit (formerly GTZ)	Verena Brinkmann	Support next forum
GIZ - Deutsche Gesellschaft für Internationale Zusammenarbeit (formerly GTZ)	Verena Brinkmann	1million stoves in 2011
Green Empowerment	Caitlyn Peake	Will investigate carbon financing options for ICS
Green Empowerment	Caitlyn Peake	Provide our community with ICS options
Independent Consultant	Michael Benedict	Develop software for monitoring stove sales +use, if possible under an open source license
Institute of Occupational & Environmental Medicine, University of Birmingham	Om Kurmi	Study and better understand to relationship between ocular morbidity (cataract, trachoma and uveitis) and different types of biomass fuel

International Institute for Ecological Agriculture	David Blume	Manufacture 10 distilleries from project Gaia
Massachusetts General Hospital	Pat Hibberd	Develop multicenter international trial to evaluate health benefits of ICS
Miombo	Paal Wendelbo	Develop a train program for young children on clean burning cook stoves using the TLUD principles
Miombo	Otto Forma	Train local communities to provide and process different types of dry biomass for agri- and forest business
Miombo	Otto Forma	Test out different types of processed dry biomass to be used in TLUD Gasifiers
Miombo	Terje Hoel	Improve strategy and information on household energy in home, countries and globally
Miombo	Terje Hoel	Implement a pilot to test out processed biomass in TLUD's (Peko Pe)
Peace Corps	Doreen Salazar	Develop consensus first step criteria(fuel, durability, emissions poor PCIA countries) for stoves we promotes
Peace Corps	Doreen Salazar	Complete a revision of our outdated cook stove training guide (2004) by April or May 2011 (final draft)
Peace Corps	Doreen Salazar	Contribute to stove consumer report database
Prakti Design Lab	Jim Dougherty	I will give two presentations on ICS
Prakti Design Lab	Jim Dougherty	Master the carbon credit regime
Project Gaia, Inc.	Terry Adamik	Make my community aware of the need for clean cook stoves, therefore making this a cause they can donate to on a regular basis
Project Gaia, Inc.	Gülce Askin	I commit to improving access to clean fuels in addition to clean cookstoves
SilverCeramicSystems.com	Reid Harvey	As a ceramist, focused in pottering for health, I'm primarily engaged in training for production of water filters. For indoor air remediation I will train in pottery rocket stoves
SNV		Will contribute its efforts in supporting the development of national programs on domestic biogas
SNV Netherlands Development Organisation	SNV	Start efforts in supporting the disseminations of ICS within national frameworks in at least 3 countries
Solar Cookers International	AmyJo Mattheis	Coordinate the solar cooking world network to standardize KPT testing for solar and integrated cooking systems
Solar Cookers International	AmyJo Mattheis	Commit to invest resources in solar cooker and hybrid solar plus cookers research and development
Solar Cookers International	Pat McArdle	Get at least 50 solar cookers world network members to join PCIA
Solar Cookers International	Pat McArdle	Use PR for my book to promote integrated cooking
Solar Cookers International	AmyJo Mattheis	Coordinate and mobilize the solar cooking world network to actively use carbon financing
Solar Cookers International	AmyJo Mattheis	Comparing with solar global cooking network for active integrated approach
StoveTeam International	Nancy Hughes	Share information on rotary funding
StoveTec	Daniel Wald	Use my applied industry knowledge to consult in the field in 2011
TEC-CHANKA SRL	Fritz Bulege Campos	Keep working with the improved stoves with lower costs in order to be easy to acquire for the poorest families
TEC-CHANKA SRL	Fritz Bulege Campos	Promote in great deal the technologies to massify use of certifies improved stoves

The World Bank	Sameer Akbar	Set my organization to commit to supporting clean cookstoves intervention
The World Bank	Sameer Akbar	Spread the word in my institution
The World Bank	Sameer Akbar	Support the GACC in furthering the clean cookstoves agenda
U.S. Environmental Protection Agency	Jim Jetter	Technical support for lab and field testing
U.S. Environmental Protection Agency	Jim Jetter	Publish stove test results
U.S. Environmental Protection Agency	Jim Jetter	Set up laboratory for next round of stove testing
U.S. Environmental Protection Agency	Jim Jetter	Participate in working group for testing+standards
U.S. National Institutes of Health	Linda Wright	Identify two good stove alternative for India, Pakistan, Afghanistan, Zimbabwe, DRC, Kenya, Guatemala, Argentina that could be implemented for health assessments
U.S. National Institutes of Health	Linda Wright	Find IAP partner in India, Pakistan, Afghanistan, DRC, Zambia, Kenya, Guatemala, Argentina with expertise in stove design, monitoring cultural acceptability
UNFCC	Masamba Thioye	Further simplify the access to CDM carbon credits
UNHCR	Shigeko Nambu	Fuel efficient stoves and alternative energy will be promoted in at least 20 refugee operations
World Bank	Karin Troncoso Torrez	Improve my knowledge about impact and adoption indicators

LATIN AMERICA AND THE CARIBBEAN

ORGANIZATION NAME	PARTICIPANT	COMMITMENT
Asociacion del Aire Ambiental	Manuel Aguilar	Results on reduce infant mortality in Peru by 30%
Asociacion Hondureña para el Desarrollo	Anibal Osorto	Apply in my country the new technology that I have see in the PCIA.
Asociacion Hondureña para el Desarrollo	Ariel Osorto	Establish an educational campaign about smoke hazards
Caritas del Perú	Gladis Espinoza Cano	Capacitate at least one agent for each community, in charge of repairing stoves
Caritas del Perú	Hilda Barja Herrera	Identify, evaluate and select resources: clays and fuels to improve the stoves in the Peruvian jungle.
Centro ECO	Dante Diaz	Active participation in PCIA
Centro ECO	Maria Del Carmen Diaz Vasquez	Install the types of stoves depending on the needs and requirements of the of the beneficiaries
CINER	Alba Gamarra	My commitment is to bring knowledgement and experience about monitoring and evaluation in the MPE of the global alliance for clean stoves.
CINER	Alba Gamarra	My commitment and the commitment of the institution I run will focus on: Spread the knowledge about improved stoves though the magazine "Energia y Desarrollo - E&D"
Directorate of Petroleum and Household Energy	Pape-Alassane Deme	Involve more the government in the procedures of dissemination/production of ICS
Directorate of Petroleum and Household Energy	Pape-Alassane Deme	Intensify and better the fertilization of the population about ICS
Endev Bolivia		Relaunch the stove campaign of 2007

Federal University of Bahia, College of Economic Sciences	Daryl Brown	Before the next forum I commit with my organization to investigate the potential for more cook stoves in my country
Federal University of Bahia, College of Economic Sciences	Daryl Brown	I will make presentation on efficient cook stoves
Fundación Natura de Colombia	Javier Dario Aristizabal Hernández	Enhance efficiency of cookstoves in Colombia
Fundación Natura de Colombia	Javier Dario Aristizabal Hernández	Improve the technology of our cook stove.
Fundación Natura de Colombia	Javier Dario Aristizabal Hernández	Encourage more players in my country about need to create a cook stove program
Fundacion Solar	Marta Rivera	Continue working towards the central American certification protocol for ICS
GIRA, A.C. Proyecto Patsari	Victor Berrueta	Form a Latin American thematic network about evaluation and testing of stoves
GIZ - EnDev Bolivia	Mariana Butrón Oporto	KTPs and CCTs in every geographical region in Bolivia
GIZ - EnDev Bolivia	Mariana Butrón Oporto	25000 new stoves for my project (Bolivia)
GIZ - EnDev Bolivia	Maria Del Rosario Loayza Cortez	Try to include the stove issue in the political agenda in my country
GIZ - EnDev Bolivia	Maria Del Rosario Loayza Cortez	Support the team of Endev Bolivia to relaunch the stoves campaign in Bolivia
GIZ - EnDev Bolivia	Mariana Butrón Oporto	Improve maintenance activities and sustainability of the project
GIZ - EnDev Peru	Edith Garson	Promote the local governments identify and adopt the leadership with clear indoor air
GIZ - EnDev Peru	Liliana Sanchez	Having more healthy families, free from smoke at their households
GIZ - EnDev Peru	Roxana Aguilar	From any subject I work with in Development, improve and take care of indoor air will be a priority
GIZ - EnDev Peru	Roxana Aguilar	Concrete the design of a community educational system to achieve the habit of improved stoves use.
GIZ - EnDev Peru	Edwin Pajares Vigo	Promote in front of government institutions, continue with the implementation of improved stoves
GIZ - EnDev Peru	Carlos Cabezudo Morales	Promote ICS commercialization strategies in Peru
Green Empowerment	Caitlyn Peake	Will support research, organization and project implementation of biogas digesters in Latin America through the RedBiolac
HELPS International Inc.	Richard Grinnell	Aiding in getting awareness to governments of Central America
HELPS International Inc.	Richard Grinnell	Figure out how to create a "social franchise" of the ONIL stoves to go into other continents
HELPS International Inc.	Naima Von Ritter Figueres	Work with GIZ + gain more experience in this area
HELPS International Inc.	Richard Grinnell	Increased good distribution of ICS in Mexico, Guatemala, Salvador, Honduras and Nicaragua
HELPS International Inc.	Richard Grinnell	Obtain registration with the UNFCC for our Mexico and Guatemala PADO's

Hombres y Mujeres en Accion	Ken Werner	Pursue knowledge, development of institutional stoves. And both the production and distribution
Hombres y Mujeres en Accion	Ken Werner	Pursue working with local and regional governments to develop fuel project.
Hombres y Mujeres en Accion	Amilcar Vielman	Continue with stove efficiency tests.
Hombres y Mujeres en Accion	Amilcar Vielman	Give information about Monitoring Project
Hombres y Mujeres en Accion	Ken Werner	Work with agencies to obtain: stove certification, funding and carbon credit
Instituto del Trabajo y la Familia	Augusto Principe	Improve the construction of the improved stoves to be more efficient including all the knowledge acquired in the forum
Instituto del Trabajo y la Familia	Augusto Principe	Make a specific monitoring according to the parameters of the institution
Instituto del Trabajo y la Familia	Walter Ascona Fernandez	Produce a monitorization system that allows a sustainable and healthy home
Instituto del Trabajo y la Familia	Héctor Ramos Salazar	Correct the monitorize actions and evaluation in a qualitative and quantitative form
Instituto del Trabajo y la Familia	Lisset Portugal	Develop projects for ICS implementation and to look for carbon credits
Instituto del Trabajo y la Familia	Lisset Portugal	Promote research
Instituto del Trabajo y la Familia	Lisset Portugal	Research about health improvement
Instituto del Trabajo y la Familia	Ines Scaglotti de Lorenzón	Test the effects of improved stoves in the community
Instituto del Trabajo y la Familia	Ines Scaglotti de Lorenzón	Research in health area
Instituto Perene	Renata Everett Valladares	Install 4000 stoves
Inversiones Falcon	Gustavo Peña	Implement a program of savings in order to buy a stove in less time
Inversiones Falcon	Gustavo Peña	Develop with expert help a combustion chamber that can apply to any model
Inversiones Falcon	Gustavo Peña	Help to use the recipe to produce artificial "poma"
Microsol	Paul Boutte	Open 4 new PoA in the word to support social projects
Microsol	Paul Boutte	Reach the implementation of half million stoves in Peru
Peace Corps - Perú	Douglas McRae	Establish ties with SENCICO in Peru to give our modd more credibility
Peace Corps - Perú	Douglas McRae	Test our stove design to see if it fits in Peruvian certification standards and modify the design as needed
PRISMA	Norma Guillen Alca	Promote the health and economic benefits of the ICS
Project Gaia, Inc. -Brazil	Regina Couto	Consciousness in the work of the Brazilian government
PROLEÑA	Marlyng Buitrago	Learn English to be part of the next forums.
PROLEÑA	Marlyng Buitrago	Apply the carbon credits projects
PROLEÑA	Marlyng Buitrago	Apply the learned test to the PROLEÑA's models
PROLEÑA	Marlyng Buitrago	Certify the models developed by PROLEÑA
PROLEÑA	Marlyng Buitrago	Apply existent model to women needs
StoveTeam International	Sanya Detweiler	Get hands on experience in field testing

StoveTeam International	Sanya Detweiler	Generate a specific training packet for new factory owners to do marketing, monitoring and successful community relations
Universidad Catolica Santo Toribio de Mogrovejo -USAT en Chiclayo	Maribel Diaz Vasquez	Investigations about the improved stove's impact on health
Universidad Catolica Santo Toribio de Mogrovejo -USAT en Chiclayo	Maribel Diaz Vasquez	Add potable water and sanitation techniques to the improved stoves.
Universidad Catolica Santo Toribio de Mogrovejo -USAT en Chiclayo	Maribel Diaz Vasquez	Promote social responsibility with the improved stove program
Zamorano University	Reyna Guzman	Work to unify evaluation criteria in the stove certification performance
Zamorano University	Timothy Longwell	Strive to become a regional testing center for Central America, recognized by GACC
Zamorano University	Timothy Longwell	Offer internship opportunities to others to visit and learn at Zamorano
Zamorano University	Timothy Longwell	Obtain training in advanced evaluation and testing of biomass stoves
